**LICENSE: OpenGiraffe – Open-Source Browser-Based AI Agent Orchestration Framework**

**This document outlines the licensing terms for OpenGiraffe, an open-source, browser-based AI agent orchestration architecture. The system enables real-time, tab-level coordination of distributed agents for intelligent workflow optimization and context-aware automation across browser environments.**

**The OpenGiraffe framework consists of a local desktop orchestrator, browser extensions, and optional mobile interfaces. It enables adaptive automation using role-assigned browser tabs, modular workflows, and dynamic user intent detection.**

**This architecture, named OpenGiraffe, was first introduced and publicly documented by Oscar Schreyer in 2025 as part of the Optimando.ai project. Authorship is cryptographically timestamped and verifiably licensed under an open, attribution-based license framework.**

**Any derivative use of the orchestration model must comply with the licensing terms below.**

---

### 📄 License Type

**This work is licensed under the Creative Commons Attribution-ShareAlike 4.0 International License (CC BY-SA 4.0).**
🔗 **Full license text: https://creativecommons.org/licenses/by-sa/4.0/**

---

### ✅ Permissions

**You are free to:**

- **Share – Copy and redistribute the material in any medium or format**

- **Adapt – Remix, transform, and build upon the material for any purpose, even commercially**

**These freedoms are granted under the conditions below.**

---

### ⚖️ Conditions

**1. Attribution (User-Facing Requirement)**

**You must provide clear and visible credit to:**
**optimando.ai – AI Automation**

**This attribution must include a clickable link to: https://optimando.ai**

**It must appear prominently within the main user interface of any product, system, or deployment that uses, displays, or builds upon OpenGiraffe.**

**Permissible Attribution Locations:**

- **A persistent header, footer, or visibly embedded UI element**

- **Next to primary integration points (e.g., download buttons, configuration interfaces)**

**Prohibited Attribution Locations:**

- **Hidden modals, expandable menus, or about dialogs**

- **Documentation, tooltips, code comments, metadata**

- **Any location not immediately visible during normal use**

---

## 2. Indication of Changes

**If you modify, remix, or extend this work, you must:**

- **Clearly indicate that changes were made**

- **Provide a reference and link to the original version (e.g., source repository or publication)**

---

## 3. ShareAlike

**If you distribute derivative works, they must be licensed under the same license (CC BY-SA 4.0), including the UI attribution requirement.**
**This ensures that all modifications remain open and accessible under the same principles.**

---

## 4. No Additional Restrictions

**You may not apply legal terms or technical measures (e.g., DRM, locked systems) that legally or practically restrict others from exercising the rights granted by this license.**

---

## 🧭 Ethical Attribution Policy for Commercial Use

**While the license is legally permissive, ethical compliance is expected—especially in commercial or institutional contexts:**

- **OpenGiraffe constitutes timestamped open-source prior art.**

- **Attempts to obscure or remove visible attribution may violate open-source norms and professional integrity.**

- **Commercial users are morally expected to preserve visible authorship and link attribution in their user interfaces.**

- **Obfuscating authorship, even if technically compliant, undermines the spirit of open innovation and may result in reputational consequences.**

---

## 💼 Commercial Licensing

**Use of OpenGiraffe in closed-source, proprietary, or enterprise-grade environments requires a separate commercial license.**

**To inquire about commercial terms, white-label agreements, or enterprise integration support, contact:**
